Section 4: First aid measures

4.1. Description of first aid measures

First-aid measures after inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing.

First-aid measures after skin contact : Gently wash with plenty of soap and water. If irritation persists, consult a doctor. Exposure to splashing of hot product: Treat the affected part with cold water (by spraying or immersion). Get

immediate medical advice/attention.

: Rinse cautiously with water for several minutes. Obtain medical attention if pain, blinking, tears First-aid measures after eye contact

or redness persist. In case of burns: cool immediately with plenty of water and during

emergency transport to a specialised hospital.

First-aid measures after ingestion Rinse mouth out with water. If necessary seek medical advice.

Section 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media : Water spray or fog. Carbon dioxide. Foam. Dry chemical. Dry powder. Sand.

Unsuitable extinguishing media : Use of heavy stream of water may spread fire.

5.2. Special hazards arising from the chemical

Fire hazard : Heat from fire can generate flammable vapor. When mixed with air and exposed to ignition

source, can burn in open air or explode if confined.

Explosion hazard : At high temperatures : Flammable or explosive vapor/air mixtures may be formed.

Hazardous decomposition products in case of

fire

: Carbon oxides (CO, CO2). Toxic fumes. 1,3-butadiene. Hydrocarbons.

Advice for firefighters 5.3.

Firefighting instructions

: Fight fire from safe distance and protected location. Use water spray or fog for cooling exposed

containers. Apply aqueous extinguishing media carefully to prevent frothing/steam explosion. Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of

burns and injuries. Prevent fire-fighting water from entering environment.

Protection during firefighting Do not attempt to take action without suitable protective equipment. Complete protective

clothing. Self-contained breathing apparatus.

Other information Fires are typically very smoky.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Emergency procedures for non-emergency personnel

: Ensure adequate ventilation. Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".

6.2. Methods and material for containment and cleaning up

: Take up liquid spill into absorbent material, e.g.: sand, earth, vermiculite. Keep recovered For containment

product for subsequent disposal.

: Wash away residue with large amounts of water. Gather the product and place it in a spare Methods for cleaning up

container that has been suitably labeled.
