

FOR IMMEDIATE RELEASE

**Resin Solutions Announces Price Increase for Poly bd® Products
Effective August 15, 2024**

EXTON, Pa., August 6, 2024 – Resin Solutions, LLC, has announced a 25 U.S. cents/lb or 0.50 €/Kg price increase across all products and regions for its hydroxy terminated polybutadiene (HTPB) product line sold under the tradename Poly bd®. The increase is effective for all deliveries on and after August 15, 2024.

The increase is due to the ongoing raw material cost escalation, particularly butadiene, which has doubled since the beginning of the year. Resin Solutions continually works to minimize raw material and other cost increase impacts. However, at this time Resin Solutions is no longer able to absorb the significant and persistent raw material cost escalations.

Resin Solutions thanks its customers for their continued business and looks forward to continuing to serve them.
